Step 1: Paint your Door Tag with your desired color. LE recommends you start with the sides of the surface and work your way around to the front. Repeat with a 2nd coat after the 1st coat has dried.

Step 2: Once your paint is dry, peel the backing off of your vinyl and line up your design to the Door Tag.

Step 3: Use your scrapper card to ensure that the vinyl is adhered well to the Door Tag.

Step 4: After the vinyl is adhered well, grab one corner of the transfer paper and slowly pull it off the vinyl making sure the design is still adhered to the wood.

Step 5: Apply an LE Flat Poly (optional) and enjoy your new sign!
