

Door Mat 2020 INSTRUCTIONS

SUPPLIES FROM LE

- (1) Door Mat
- (1) 17.5" x 29.75" w
Stencil Vinyl
- (1) 1 oz. Paint
- (1) Foam Brush

SUPPLIES FROM HOME

- (1) Painter's Tape
- (1) Hair Dryer

Step 1: Peel off the back of the stencil vinyl. Place the stencil vinyl on the Door Mat in the desired location. Use your hands to rub the stencil to ensure it is adhered securely to the mat.

Step 2: When it is secured to the mat, very slowly peel back the transfer tape from the stencil vinyl. As you're pulling, make sure the stencil remains adhered to the mat.

Step 3: After the transfer tape has been removed, use a hair dryer to lightly blow warm air over your design for a few seconds to allow the vinyl to stick into the fibers. Don't leave the hair dryer over one spot for too long.

Step 4: Use a foam brush to LIGHTLY dab paint over the stencil design. Wait for the first coat to dry completely. Apply a second coat.

Step 5: Once the paint is dry, peel up the stencil. Use a small tool (tweezers, exacto knife, etc.) to pick out the excess pieces.
