# July Craft Club Box Project Instructions

Here we are in the midst of the lazy days of summer! Whether you spend your days playing at the beach or relaxing in your hammock, summer is the time for making memories and rejuvenating the soul. Add a little fun to your home with these adorable beach blocks and remind yourself to slow down with this Relax cutout!

We would love your help! We will be posting our July Craft Club Box on our corporate Facebook page (Life Expressions Decor) on July 5th, and we want you to post pictures of your finished projects. Post pictures of you creating these items, or when they are finished and displayed in your home. Anyone that submits photos by July 31 will be entered to win a "thank you" gift from us!

## Relax Cutout

1. Start by painting the sides of your cutout. Work your way to the front and paint until you have covered the cutout evenly.
2. Once your cutout is dry, remove the backing paper of your printed vinyl. Line it up on your cutout and firmly rub it onto the surface using a scraper card. Remove the transfer tape slowly, making sure the design has completely adhered to the cutout.

## Stacker Blocks

1. Start by painting the sides of your blocks, and then work your way to the front. No need to paint the middle since the majority of the block will be covered with the printed vinyl!
2. Once your blocks have completely dried, lay your vinyl. Remove the backing paper, center the design to your liking, and then firmly rub it onto the surface using your scraper card. Remove the transfer tape slowly, checking to make sure the design is staying in place on the blocks.
