September Craft Club Box Project Instructions

Coffee is one of the most popular drinks on the planet, so when our Creators suggested to us that they wanted to see a “coffee” craft in Craft Club, we couldn’t agree more!

These days, building a “coffee nook” in your home is common. Lots of people set up their little coffee areas or organize their counter to make space for their coffee bar. And what makes that area so much cuter?? A coffee sign, of course! And let’s be honest, even if you personally are not a coffee lover, you definitely know someone who is. This will make the perfect gift that is sure to bring an ounce of joy into their lives- just like their coffee!

Just for fun, we wanted to share these 5 fun facts that every true coffee enthusiast should know. (For more fun facts about coffee, visit www.coffeeinformer.com)

Coffee beans come from a cherry-like berry that grows on a bush. At the center of the fruit is a pit, which is what we roast to make coffee. Coffee was originally chewed. According to historians, coffee berries were ground and then mixed with animal fat to create energy-rich snack balls.

Brazil is the largest producer of coffee in the world. They’ve held this title for more than 150 years.

Coffee is the world’s most traded commodity next to petroleum.

Finland is the world’s top coffee-consuming country. It comes as no surprise since it is pretty cold over there, and they need to stay warm.

CYO FRAME BOARD

1. Start by painting the four outside frame pieces with your Brown paint. Set aside to dry.
2. Paint the frame insert using even brush strokes, allow to dry.
3. Glue the outside frame pieces together around the insert. Once you've applied your glue, tape the four corners of the frame to secure it while drying.
4. Place your vinyl in the middle of your CYO frame. Use a scraper card to secure the vinyl to the insert and remove the transfer tape.

COFFEE MUG

1. Apply vinyl to the surface
2. Use your scraper card to secure the vinyl to the mug
3. Remove transfer tape

We would love your help!
