Craft Club Box Project Instructions

The options are endless on how to use this adorable tray. Consider serving some sophisticated charm along with your drinks and snacks. When not used for entertaining, it's the perfect size for a coffee table, buffet or kitchen island. Use it alone or fill it up with your favorite knick knacks. If you provided us your last name when signing up for our Craft Club Box, we sent you the last name you requested. If not, the word "gather" is perfect for any family.

Round Tray

1. We sent 3 paint colors for you to pick from. So first, pick the color that is the best match for your home décor. Your vinyl lettering is black.
2. Starting with the edges, paint your board. There are many different paint techniques that can be done, so make this your own! Painting the back is not necessary, but feel free to do so if you desire.
3. After coat #1 dries, take a look at it and decide if you would like to add another coat. Everyone has a different preference, so again- make it yours!
4. Let dry.
5. Decide if you want to "rough it up" at all by sanding edges or the face. There's no right or wrong way to do this. Sand away!
6. Now that your paint is completely dry, lay your vinyl lettering. Remove the backing paper, center the design to your liking, and then firmly rub it onto the surface. Remove the transfer tape slowly checking to make sure the design is staying in place on the board.
7. While applying our poly is not required, we do highly recommend that you do use it. It will protect it better when setting items on top of it.
8. Lay your handles on your board wherever you would like them to be placed. Drill them in place. (NOTE: We find it easiest to use a nail to start a very small hole for the screw. You don't need to tighten the screw all the way, as it may bubble out of the back slightly if doing so).
9. Ta-da! Now find the perfect place to use this gorgeous tray in your home. We are excited to see all the ways you use yours!
